Your responsibilities will include:

- Leading, guiding, and motivating the maintenance team.
- Planning and executing preventive and corrective maintenance.
- Troubleshooting mechanical and electrical failures.
- Working in accordance with quality, food safety, and HSE (Health, Safety & Environment) guidelines and ISO standards
- Reporting to the Operations Manager
- Ensuring compliance with safety regulations, especially in the field of electrical engineering.

What you bring:

- A bachelor's degree (HBO level) in Electrical Engineering or Mechatronics with at least 2 years of relevant work experience, or a vocational diploma (MBO level) in Electrical Engineering or Mechatronics with at least 5 years of relevant experience.
- Proven leadership experience.
- Experience in a production or industrial environment is required.
- In-depth knowledge of electrical systems, PLCs, and maintenance planning.
- Proficiency in English, Spanish, Papiamentu, and Dutch.
- Skilled in MS Office (Word, Excel, PowerPoint).

What we offer:

- A diverse and responsible role within a dynamic production company.
- Opportunities for professional growth, training, and career advancement.
- A collegial work environment and competitive employment conditions.
